

# Smarter Balanced RFP # 11/Test Authoring

Test Authoring / User Interface

## Scenario Description:

Delete Segment from UI

## Version Control

Version #	Date	Author	Description
1.0	03/06/2014	MR	Initial Draft

## Test Scripts:

The following scripts, links and pages consist of deleting and validating Segments from Test Authoring UI

## Test Components:

This test scenario covers the following high-level test requirements (see scripts below for specific requirements covered by each test script):

- 1.0 Manage Assessments

## Requirements Traceability:

*RADTIB 24.1, RADTIB38.8, RADTIB33*

## Testing Requirements:

- The Test Authoring application permits authorized users to create and manage Test Segment entities.
- Show all test segments in a grid
- Provide dropdowns to filter test segments by publisher, subject, grade and test
- The test dropdown is itself filtered by publisher, subject and grade
- Provide a link for users to select a test segment to edit
- Provide a means for users to delete segment a test
- Provide the means for users to create a new test
- Test Authoring requires a considerable number of consistency checks and validations to ensure that all test specification elements are complete within themselves and consistent across each other. This section captures these validations in the form of additional requirements

Script #:1.1 Update Segment

# Smarter Balanced RFP # 11/Test Authoring

## Test Authoring User Interface

### Purpose:

Delete and validate Segment

### Assumptions:
